UNIVERSITY OF ILLINOIS

OFFICE OF THE CHANCELLOR **URBANA-CHAMPAIGN CAMPUS** URBANA, ILLINOIS 61801

The University of Illinois is proud of the Rehabilitation-Education Center. The outstanding work of the Center has gained national and international attention. The Rehabilitation Program of the Center plays a crucial role in stimulating and preparing students to make significant contributions in a highly competitive society. By this yardstick alone the Program has been a monumental success.

This success has been characterized by the spirit, perseverance, and faithfulness of the students, as well as by the creative and dedicated leadership of Professor Timothy J. Nugent. As such, the Center stands as a symbol of hope and fulfillment not only for those directly involved but to the entire university community.

I salute the work of the Rehabilitation Center and wish it continued success in its pursuit of excellence.

Letter from the Editor

Dear Friends,

This issue of Sigma Signs was designed with three groups of people in mind. The first group is the current handicapped students on the University of Illinois campus. There are pictures of various activities that occurred during the school year 1970-71 which may bring back memories. The second group is the alumni. I hope that you will get an idea of what campus life is like now and will learn about some of your old friends from Alumni Briefs. The last group is those people who have really never known a blind person or a person in a wheelchair. I want to dedicate this issue to you most of all. I hope that after you read this you will realize that handicapped people are just "ordinary people".

Many of the pages are devoted to wheelchair sports. It is through wheelchair sports that many first become associated with the handicapped and see them as people, but the public should be aware that sports is not the only activity. Not every person in a wheelchair has the desire to participate in sports just as not every able-bodied person is athletically minded. Many handicappd students participate in campuswide activities, such as choral groups, student government, theatrical productions, and professional organizations. Many find studying a full-time occupation. Others spend the majority of their time goofing off doing things only a college student would think of doing. In general, handicapped students on the U of I Campus are having fun enjoying life.

I hope you will enjoy reading this issue and will learn more about us.

Sincerely, Mary Wolfe

Mary Jane Cera and Sue Lo Tempio, Assistants

In the Beginning

Spring, 1970—This is the beginning for any high school senior or college transfer student who wants to enter the U of I in the fall . . . an interview with Mr. Konitzki (one soon learns to call him Mr. K.) . . . push around the gym, go up a ramp, and transfer as fast as you can for Mr. Elmer . . . get a tour of the building . . . celebrate when Mr. K. says you get to come a week early for Functional Training . . .

(above) A new student, Shirley Cordova, is interviewed by Mr. Konitzki.

(above) "Maybe I'll get done in another 3 hours."

September, 1970 — Functional Training Week (alias Hell Week) is the week before New Student Week when those students who might have difficulties achieving physical independence learn to cope with the campus routine . . . take dry showers until you are wet from perspiring . . . practice pushing up a ramp in less than 15 minutes . . . get your first blisters . . . fall asleep exhausted every night . . .

(below) And New Student Week is the time to make new friends.

Balance \$000.00

New Student Week—Move into the dorm . . . meet your roommate and new friends . . . get lost trying to get to the Union and then get lost in the Union . . . spend 4 hours registering so that you won't have any 8 o'clocks and end up with 5 . . . buy books and write home for more money . . . get homesick but pretend you aren't . . . have fun just goofing around . . .

At the DSO picnic Joanne Owen dries off from a dip in the lake (left) while others bundle up for a boat ride (above).

e

S

i

DSO Picnic-Every year the day before classes begin the Springfield Disabled Veterans sponsor a picnic for all the rehabilitation students, staff, and friends, at Lake Springfield. . .a little rain never hurt anyone. ..eat, drink, and be merry with old friends and new... First Week of Classes-Take the wrong bus so cut your first class. . .get lost trying to find the Altgeld elevator so late for second class. . .already 3 papers and 6 books behind. . .find the local bar and get your first and last (?) hangover . . . meet someone special. . .have a ball...

(above) "Only 3 more semesters of this and 1 will be done with P.E."

(above Mary Jane Cera had a lot of obstacles to overcome before learning how to drive but she did it and now has a license.

(below) And, yes, students do attend classes occasionally

DSO Banquet

October, 1970-Every year Delta Sigma Omicron, the student rehabilitation service organization, sponsors a banquet in the Union where awards are given to the rehabilitation students or alums who have achieved success in their endeavors and who have served others well...entertainment provided by students...laugh at some of Rich Feltes's jokes... listen as Mrs. Cera tells what it is like to be the mother of Mary Jane...hear Jack Whitman tell about his experiences as a Gizz Kid...

(below) Harold Scharper Award winners were Fred Fay. Rich Feltes, Judy Webb Harris, and Tom Brown.

Harold Scharper Awards

Each year a Harold Scharper Achievement Award and a Harold Scharper Service Award are given to graduating seniors or alumni in memory of Harold Scharper, the first student in the rehabilitation program at Galesburg. The Achievement Award is presented to the graduating senior or recent alumnus who has exhibited the greatest endeavor during his schooling at the University of Illinois or immediately upon completion of his schooling. The Service Award is given to a student of any class, who has contributed the greatest service in the development and furtherance of the purposes and practices for which Harold Scharper dedicated his life. Each individual receiving these awards is given a fitting desk or wall plaque and his name is inscribed on either the Harold Scharper Achievement Plaque or the Harold Scharper Service Plaque which hangs in the University's Rehabilitation-Education Center. These awards are the highest recognition that the University of Illinois and Delta Sigma Omicron, Incorporated, can bestow upon one of its physically handicapped students and it is indeed an honor to the recipient.

JUDITH WEBB HARRIS

Judy, nee Webb, Harris received her Bachelor of Science Degree in Recreation and Park Administration in June 1970 with a cumulative point average of 4.627 (4.0 = B; 5.0 = A).

She is presently employed as Director of Special Programs for the Handicapped, Champaign Park District, wherein she has the responsibility for developing multiple recreation programs for physically handicapped of all causes and manifestations as an integral part of the Champaign Park District.

Judy received academic honors recognition in 1968, 1969, and 1970. She was elected a James Scholar. She was elected to the Bronze Tablet in 1970 and graduated with highest honors in the College of Physical Education in 1970.

Judy was elected to Phi Kappa Phi, National Honor Society.

In May 1970 she was elected as one of the "Top 100 Seniors" by the University of Illinois Alumni Association and the Illini Union Student Activities Board.

In the spring of 1970 she was selected to receive the Charles K. Brightbill Award as the most outstanding student in the Recreation and Park Administration.

Judy has not limited her outstanding achievements to academics. She has distinguished herselt in many fields of athletic competition.

In 1967 she received a gold medal in the Columbia Round Archery Competition at the Stoke Mandeville, England International Wheelchair Games and a silver medal in the Slalom. That same year she received a gold medal in the Columbia Round Archery and a gold medal in Dartchery at the Pan American Wheelchair Games in Canada.

Judy holds the National Records in both the Columbia and the American Rounds in Archery set at the National Wheelchair Games in New York. She also won the National Championship in Table Tennis for Class I Women at the National Wheelchair Games in June 1968.

Judy was selected as a member of the U.S. Paralympic Team to compete in the Israel Paralympics where she won a silver medal in the Albion Round Archery and a bronze medal in the FITA Round Archery while breaking the old world FITA record.

In 1968 she was nominated for Woman Athlete of the Year in the State of Montana.

Judy served as an activity leader at St. John's Retirement Home in Billings. Montana during July and August of 1968.

She served as an activity leader at Younker's Rehabilitation Center. Des Moines, Iowa, July and August of 1969.

She was a member of the Advisory Committee to the President of the Illinois Parks and Recreation Society during 1969 and 1970 and was an Administrative Assistant to the President of the Illinois Parks and Recreation Society during 1969 and 1970. She also served as an activity leader at the Adler Zone Center during 1969.

Judy has also gained considerable respect for the many services she has rendered. She has served on many committees of Delta Sigma Omicron. She was a member of the folk singing group in 1968, 1969 and 1970. She served two years as Treasurer of her residential unit of Allen Hall.

To hear her speak, her greatest achievement was marrying Tim Harris. One of her great thrills was being chosen by the U.S. Paralympic Coaches as one of three persons representing the three major religious groups to greet the Pope in Rome and to present him with a gift from the U.S. Paralympic Team.

Judy is completely paralyzed from the eighth thoracic vertebra on down as a result of neuromyelitis.

RICHARD J. FELTES

Rich Feltes earned the respect and affection of all of his peers and all of the students and faculty with whom he came in contact because of the nature in which he does things for others and himself, in that order, and for the qualitative as well as the quantitative aspects of what he does.

The officers of Delta Sigma Omicron and various committee chairmen have commended Rich many times for his willingness to work on behalf of any worthwhile project and for his effectiveness in seeing projects through to completion.

Rich's indomitable spirit and enthusiasm always infect all of those with whom he comes in contact.

Rich served as Chairman of the Twenty-first Annual Awards Banquet and as Chairman of the Delta Sigma Omicron Public Relations Committee during 1969-70.

Richard Feltes developed into an excellent public speaker and has been called upon on many occasions to present viewpoints of the physically disabled in seminars, conferences, etc. His efforts here were most meaningful and effective.

Rich was also one of the most effective fund raisers for various Delta Sigma Omicron projects.

He served as a volunteer for Volunteer Illini Projects and also served as a math tutor.

In June 1970 he was selected as one of the "Top 100 Seniors" by the University of Illinois Alumni Association and Illini Union Student Activities Board.

Richard Feltes was a member of the University of Illinois Wheelchair Educational Demonstration Unit which put on educational programs and demonstrations throughout the United States, including Hawaii. He was one of the leaders of this program.

Rich was a member of the Illinois Gizz Kids Wheelchair Basketball Teams from 1967-68 through the 1969-70 seasons, including the two National Championship teams in 1969 and 1970. Rich was never a regular member of the starting five, yet he was always there in support of his team and developed into one of the best utility players in the history of the Gizz Kids. Many times his participation in the game made the difference.

He was a member of the White Flashes wheelchair football teams in 1968, 1969 and 1970, winning the championship in 1969. Rich was a member of the National Championship Illinois Gizz Kids Track and Field Teams of 1967, 1968, 1969 and 1970, and is holder of the National Record for the One Mile Race in Class III (6:45.7), and a member of the Two Hundred and Forty Yard Relay Team which set a National Record in 1969.

He was selected as a member of the U. S. Paralympic Team to participate in the Paralympics in Tel Aviv, Israel in 1968 where he won a bronze medal in the 60 meter dash and was also elected a member of the U.S. Pan American Wheelchair Games Team in 1969 and was a gold medalist in both swimming and track.

Rich currently shares in the management of a large produce farm in northern Illinois.

Rich is currently spearheading attempts to organize wheelchair sports and other activities for the physically disabled in the northern Illinois area.

Rich had poliomyelitis at the age of one leaving him with considerable paralysis in his legs and spotty paralysis in the lower trunk. Rich is ambulatory.

THOMAS R. BROWN

Thomas R. Brown is a senior in Music, College of Fine and Applied Arts, with a cumulative grade point average of 3.904 (3.0 = C; 4.0 = B).

Tom is well known for his outstanding achievements in both athletics and music and these tend to overshadow both the quality and the quantity of the services he has rendered to others and to the University. His peers, in nominating him, emphasized the readiness of Tom to help in any way that he can while remaining in the background. Tom never says "no" when asked to be of service.

Tom Brown served as President of the University of Illinois Flute Club during 1967-68.

Tom has served as Commissar for Koinonia Cooperative House in which capacity he is responsible for the procurement of all foods and materials for the cooperative.

Tom has served as Athletic Chairman for Koinonia for three and one-half years during which times the Koinonia teams have won championships in football among independents and a second in basketball among independents.

Tom has entertained inmates at State Hospitals throughout Illinois and elsewhere by performing on his flute. He has made several other hospital visitations participating in educational seminars, educational demonstrations and talking with physically disabled patients.

Tom has been invited to perform at faculty concerts of the School of Music.

He has been an active leader in many of Delta Sigma Omicron's projects, and has served very effectively on several committees of Delta Sigma Omicron. Tom was Chairman of the Entertainment Committee in 1969 and General Chairman of the Awards Banquet in 1970.

Tom has entertained at many Delta Sigma Omicron functions and was featured at the Dedication of the new Rehabilitation-Education Center. He also performed throughout the United States on behalf of Delta Sigma Omicron and the University of Illinois.

Tom received University Honors Day recognition in 1969 and 1970.

Tom served as a counselor at the Colorado Easter Seal Handicamp for Handicapped Children in 1969 and was appointed Head Counselor at this camp during the summer of 1970.

Tom was also selected as a member of the University of Illinois Wheelchair Educational Demonstration Group which toured throughout the United States, including Hawaii, giving educational demonstrations, conducting educational seminars, entertaining, and demonstrating athletic skills in a wheelchair.

Tom Brown received the Captain James S. Ure Award for outstanding sportsmanship in 1968 at the conclusion of the Twentieth Annual National Wheelchair Basketball Tournament and the Twentieth Season of the National Wheelchair Basketball Association.

As an athlete, Tom Brown excels. It would be difficult to list all of his achievements but a tew of the highlights would include: Highest Individual Game Score in Tournament Competition (39 points); Highest Average Scoring Per Game in Tournament Competition (33 points per game); First Team All America in Wheelchair Basketball in 1968, 1969 and 1970 and Third Team All America in 1967; holder of the National records in the 60-yard dash and 100-yard dash in Class HI competition and winner of the Slalom in the National Wheelchair Games for the past three years. At one time he also held the National Mile Record Class III competition.

Because the international rules of competition do not yet include, or allow for, participation by amputees, Tom has been denied the opportunity to participate in the Paralympics. Because of outstanding people like Tom Brown, this international rule is now under discussion and consideration.

Tom is a congenital bilateral, above knee amputee. He gets about both by ambulating on artificial limbs and by use of a wheelchair.

FREDERICK F. FAY

Fred Fay, currently a Ph.D. candidate in Educational Psychology, received his Bachelor of Science Degree in Psychology from the University of Illinois in 1967 with a cumulative grade point average of 3.803 and his Master of Science in Educational Psychology in 1970 with a cumulative grade point average of 4.5 (4.0 B; 5.0 A).

From June of 1967 to September of 1969 Fred worked as Computer Programmer for IBM Federal Systems Division, Gaithersburg, Maryland.

Since receiving his baccalaureate degree, Fred has effectively represented the University of Illinois, Delta Sigma Omicron, and individuals with spinal cord injuries at various state and national meetings. He has been an official delegate to the National Paraplegia Foundation on several occasions and has served on several national committees of the National Paraplegia Foundation. For the past five years he was a member of the Steering Committee of the Architectural Barriers Project in Washington, D.C. He was co-founder of Opening Doors, a service group in Washington, D.C. for and of paraplegics and quadriplegics.

He served as President of the National Capital Area Chapter of the National Paraplegia Foundation for two terms during 1967 and 1968.

Fred has written several significant articles. He has spoken before lay and professional groups and for one year lectured to medical and paramedical personnel and medical students at several major hospital facilities with expressed interests in the rehabilitation of individuals with spinal cord injury. He received many high accolades for the effectiveness of these lectures and special programs.

Among some of his most noteworthy achievements was the role he played as a member of the National Citizens Conference on the Rehabilitation of the Disabled and Disadvantaged sponsored by the U. S. Secretary of Health, Education and Welfare. He served as Vice Chairman of the Conference Work Group on Architectural Barriers.

Fred Fay was a consultant and an editor to the publication "The Goal is Mobility" and served as technical consultant and editor to the 16 mm color sound film produced by the U. S. Office of Education, "Beating the Averages" which featured both him and his lovely wife, Linda.

Fred was largely responsible for the publication of a Guide to Washington, D.C. for the Physically Disabled.

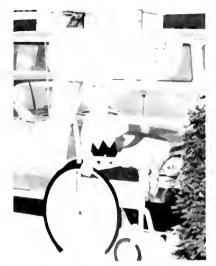

Fred prepared testimony and evidence in support of federal legislative bills HR-4822 and S-1117 so that the new subway for the District of Columbia would be accessible to, and usable by, the physically disabled. Fred was invited to be present at the time the President of the United States signed this bill into law and has, as one of his proud possessions, one of the pens used in the signing of the bill.

In 1967 Fred was selected one of the "Top 100 Seniors" by the University of Illinois Alumni Association and the Illini Union Student Activities Board.

In 1965 he was recipient of the Harold Scharper Service Award in recognition of his persistent hard work on behalf of those things which Delta Sigma Omicron and the Rehabilitation-Education Program represent, both on and off campus.

As an undergraduate, Fred held several responsible offices in the residence hall governing system, chaired and was a member of several significant and effective committees of Delta Sigma Omicron, spearheaded several aspects of the disabled student orientation program, and was a contributor to SIGMA SIGNS.

Fred is 26 years of age and a traumatic quadriplegic with paralysis beginning at the sixth cervical vertebra following a fall from a trapeze June 4, 1961. He has since had a fibrous cyst removed from the spine at the third cervical level. He completed his high school work via home teaching. At the time he came to the University of Illinois he was not physically functional and worked exceedingly hard to become a completely independent, tireless and productive worker.

Football Season-draft freshmen. . .learn to crash hard but legally. . .learn to get back into your chair before anyone notices you. . .learn not to run over the crowd during an exciting play. . .cheerleading practice. . .argue about uniforms. . .learn to "pop a wheelie" for a cheer and fall several times. . .lose a shoe while out on the floor cheering. . .

Action

Letter from DSO President

The Alpha Chapter of Delta Sigma Omicron made an attempt this year to achieve a change in focus, a broadening of perspective. It was the commonly held view of disabled students on campus that DSO should become a more effective organization, functioning as more than a name with which the Rehab Center sponsored various athletic and informational activities. So we tried to rearrange our priorities and discover what our purposes and functions could be, and what we might accomplish, as a student organization.

Here are some of the things we have done towards this end:

- 1) Our Architectural Barriers Committee is determining what we might accomplish on a state and national level, as well as becoming more functional locally.
- 2) We are getting more involved in campus-wide programs and programs elsewhere in the country which desire our help: financial, organizational, or informational.
- 3) An information library pertinent to the needs of all disabled is being set up which we hope will be useful to anyone desiring such information.
- 4) On April 22, 23, and 24 we participated in a workshop for Occupational Therapy students from surrounding colleges, to expose them to and educate them about attitudes, ideas and abilities of the rehabilitated, as they relate to the Occupational Therapist.
- 5) We formed an Athletic Advisory Committee to help the Recreation Staff at the Center in the conduct of athletic activities.
- 6) We gained student representation on the Advisory Committee to the Dean on policy and operation of the Rehabilitation Program.
- 7) We instituted the Timothy J. Nugent Award to be presented by DSO each year to a person the students feel has made achievements worthy of recognition. It will be a monetary award donated to a cause of the recipient's choice.
- 8) We renovated the Annual DSO Awards Banquet, attempting to make it more interesting, more enjoyable, and more a student affair.

I hope we have begun a change which will result in making DSO a vital and effective organization which is sensitive to the needs and desires of the disabled.

> Lynn Dickey, President Delta Sigma Omicron Alpha Chapter

1971 Tour

January, 1971-Every year during semester break the Gizz Kids, a student group of wheelchair basketball players, cheerleaders, and squaredancers, tour parts of the country educating people on the abilities of the disabled...this year headed north and east...first stop Hammond, Indiana...at grade school assembly kids treated us like celebrities...next to Mary Jane Cera's house for pop and pizza...then supper at a "real fancy place"...in front of 4500 people, thanks to Mrs. Cera, beat the Rockford Chariots...more food at a reception after the game.

(above) "One big happy family"

(above) "Come on, Tim. This is no time to be dancing."

(right) Believe it or not the girls were actually playing against five boys at this time.

(below) Sue Sea, star salesman, strikes again.

(above) The guys didn't want to leave the Football Hall of Fame and even the girls enjoyed the museum.

Next day rode to Lansing, Michigan...lost game to Detroit Sparks...reception afterwards not too cheerful but still fun in the Gizz Kid spirit...following day spent riding on bus to Canton, Ohio...met our sponsor, Father Curran...paired off and went to "our families" houses...most houses loaded with steps and kids but really great people...next morning practiced with a local Boys Club and even the girls got into the act...went to two shopping centers to sell tickets to the game... visited Football Hall of Fame...

(above) A "shower" feels good after a game!

On to Johnstown, Pennsylvania, to play the Rehab team there. . .few of us went swimming in Center's pool after game. . .trip to hospital after one cheerleader fell and cut herself. . .path to breakfast next morning downhill and through snow. . . "Gospel Gizzers", an unusual singing group, formed...

(below) An aerial view of a football exhibition.

(left) "Jim, we're not playing on the floor!"

(below) Father Curran, an indescribable person, keeps us entertained as we wait for the bus to be repaired.

Sunday over 4000 people saw the Gizz Kids beat the Cleveland Comets...Monday morning bus broke down...played cards and talked in grade school cafeteria...mobbed at lunch by kids wanting autographs...finally left around 2...

(above) "The captain says 'Fire up' so here goes."

Next stop Harrisburg. . .trip to Gettysburg. . .three schools assembly programs. . .lost to Philadelphia by 2 points. . .final game at East Orange, New Jersey. . .drove straight back to Champaign. . .got home exhausted at 3 A.M. Saturday. . .classes start Monday, ugh!

(above) Gwen Phillips tries a layup.

February, 1971 - Girl's Basket-ball - This winter a few girls in wheelchairs and some able-bodied girls organized a girls' basket-ball team . . . first wheel around the gym . . . practiced passing, dribbling, and picking ball up on spokes . . . finally advanced to lay-up shots . . . tried to play a game . . . rough sport but laugh a lot . . .

(above) "Look! Up in the air! It's a bird, it's a plane."

"Women's Lib"

(above) We may not be the Harlem Globetrotters but we sure have a ball!

(left) "Wait! Let's decide which direction we're going."

(below) "No fair! Buffy's a 'foot'
taller than me!"

(right) Sue Sea scores!

(below) Confusion reigns as usual.

March, 1971-After having won the championship 2 years in a row, the Illinois Gizz Kids had trouble qualifying for the tournament when two close losses to the Champaign-Urbana Black Knights put them in 2nd place in their conference. In the last few seconds of a play-off game, the Gizz Kids beat Indianapolis and went on to beat Sacramento (49-26) and Brooklyn (46-40) in tournament play before losing to Detroit (39-60). The Detroit Sparks beat the Black Knights to win the tournament and the Gizz Kids ended up in 3rd place after having no trouble with Philadelphia (58-40). At the tournment banquet Tom Brown and captain Jim Taylor were named as 1st team All-Americans and Kim Pollock and Tim Harris were named as 2nd team All-Americans. Tom Brown also was voted the most valuable player of the tournament.

(above) "Round and round it goes and where it stops nobody knows."

"Well, I don't want it!"

(below) Cheerleading captain Sue LoTempio takes time out to sign an autograph.

1971 NWBA Tournament

(above) Ticket chairman, Rod Vlieger, and secretary Casey keep track of tournament tickets.

Tom Brown watches in disbelief as a Philadelphia player takes time out to juggle the ball.

(below) Captain Jim Taylor is congratulated by cheerleaders Marilyn Boczulak and Gwen Phillips after the victory over Philadelphia.

Wheelchair for a Day

(above) Guess which of these students uses a wheel-chair every day?

(above) Charlene DeLoach answers a question about adjustment during panel discussion.

(above) Ernie Hodge demonstrates how a quadriplegie dress es himself.

April 1971 - National Student Occupational Therapy Rehabilitation Workshop - The Rehabilitation Center staff and students participated in the Student Occupational Therapy Workshop held at the U of I on April 22. 23. & 24...led students from other universities through a tour of the Center . . . gave exhibition of wheelchair sports ... participated in discussion groups on rehabilitation . . . all the OT students spent an afternoon in a wheelchair . . . We all hope that everyone who attended the Workshop returned to their universities with a better understanding of what it means to be physically handicapped

(above) This OT student seems a little skeptical about getting off the bus with his "new vehicle".

OT student Mike Goodling, co-chairman, spent many hours planning the Workshop, (below) He leads this informal discussion on rehabilitation.

Get on Your Mark

June, 1971-Started practicing in March for the National Wheelchair Games held in New York each June...swim at 6:30 A.M....lug out equipment for field practice...go to Pennsylvania Games to gain experience...hold Intercollegiate Games at U of I...leave for New York late because of music final...lose tire and wait 3 hours alongside cornfield...have lottery for time we arrive at hotel...3 days of ping pong, weightlifting, bowling, swimming, archery, and track & field events...meet new friends...7 Gizz Kids selected for U.S. team to compete in the Pan American Games in Jamaica...sleep all the way home...

(above) Buffy Fetter sets a new national record in the discus for Class I women.

(right) Carl Lewis and Dan Dropko are neck and neck in this distance race.

(above) Mike Goodling hopes for a bull's eye. (left) Mary Jane Cera "runs" through the slalom (obstacle course) during the Intercollegiate Games.

Tom Brown supervises as Sue Sea throws the javelin (above). Sue won 6 firsts in New York and broke international swimming records in Jamaica.

Sigma Signs Congratulates

Tom Brown, Mike Boddy, Dan Dropko, and Jim Taylor (not pictured). These four were honored at the Annual Gizz Kid Basketball Banquet. Tom was elected most valuable player and Mike was elected as most improved player. Dan was chosen 1971 Captain to follow 1970 Captain Jim Taylor.

Jack Whitman-Jack was named as a member of the Wheelchair Hall of Fame for his achievements in archery, for his great sportsmanship, and for sharing his talents with others.

Charles Sheridan - Jamestown, Ohio B. S. in Accounting Traumatic Paraplegia

AUGUST

Norton Brown - Muncie, Indiana M.S. in Educational Psychology Traumatic Paraplegia

Joseph Hemphill - Paris, Illinois M.A. in Anthropology Post-Polio

Sulvia Herrstrom - Rock Island, Illinois B.S. in Mathematics High Honors in LAS with High Distinction in Mathematics Traumatic Paraplegia

Thomas Jones - Champaign, Illinois M.S. in Radio and TV Traumatic Paraplegia

Arthur Poe-Ozark, Alabama A.M. in Economics Traumatic Quadriplegia

George Stupp - Frederick, Maryland M.S. in Electrical Engineering Post-Polio

Patrick Vaughan - Chicago, Illinois B.S. in Journalism Cerebral Palsy

'Just a Few Steps"

The University of Illinois is really a great place for people in wheelchairs. All the sidewalks have cut-away curbs, all the buildings have ramps, and most restrooms are wide enough for wheelchairs. However, if a student goes home or starts looking for a job away from Champaign-Urbana, steps immediately become a problem. You don't realize what a problem steps can be if you can't get out of your wheelchair. No one likes to be pulled up steps-there goes your independence.

I have been in a wheelehair all my life but fortunately I can use crutches, too. Before I came to school, I would go up steps on my crutches, but I still required someone's assistance to carry up my chair. When I couldn't get into a bathroom in my chair, I simply hopped a few steps. Before I came to the U of I, I never thought about people who couldn't hop. Now I have become aware of steps and I feel embarrassed when I go somewhere and use my crutches. I think about the fact that one of my friends couldn't go there. This seems like discrimination to me. Every house, building, or store with steps and no ramp or elevator seems to be advertising, "No wheelchairs allowed".

Able-bodied people are probably reading this and saying, "Well, other towns might need cut-away curbs and ramps but I have never seen a person in a wheelchair in our town". They don't realize that they may not have seen people in wheelchairs because the town is too inaccessible. Now someone is probably saying, "Well, I am no architect. What can I do about it?" Perhaps you aren't an architect but you may be on the town council or you may have some influence. Even just writing a letter to the editor about accessibility would help.

I did not write this because someone asked me to write about accessibility. I did not write this for the benefit of someone in a wheelchair, because he already knows what the score is. I wrote this for anyone who has felt exhausted after climbing a flight of stairs, for any woman who has ever been pregnant, for anyone who has awakened a baby by bouncing him down a curb, for any elderly person who can't climb a flight of stairs as quickly as he used to, for anyone who has carried several big bags of groceries and hated those steps up to his apartment, and for anyone who has been injured and knows how hard it is to go down a step on crutches, if only for a few days. Remember, a handicapped person may be very independent, but it only takes two steps to make that person very dependent on someone else.

Alumni Briefs

William R. Acheson - Bill is employed as an architect in Dallas, Texas at Architectonics, Inc. He enjoys photography, and his wife, Gloria, and daughter, Ann, are ready subjects. Lloyd Ackland - Lloyd is a self-employed farmer in Compton, Illinois. He and Carolyn White were married in Fairfield, Iowa July 10, 1971. Robert Underwood - Bob is an Assistant Director, University Honors Programs of the University of Illinois, in Urbana He, and his wife, Nancy, have two children, David and Susan, Bob is League President of Babe Ruth Baseball and enjoys bowling.

Mary Lou (nee Meinert) Van Barriger - Mary Lou enjoys being a fourth grade teacher at the Brookview School in the Rockford, Illinois System. School activities, bowling and NPF occupy any spare time Mary Lou may have. Douglas and Norma (nee Francis) Van Selow -

Having received his Master's degree in Education, Douglas is now a Guidance-Counselor at MacArthur High School. He, Norma, and their daughter, Kimberly, live in Decatur, Illinois. Doug and Norma enjoy painting. Norma does art work from her home. George Veenstra -Congratulations George and Jeanne who were married July 31, 1971. George is a teacher at Washington Middle School in Springfield, Illinois. Jeanne is a nurse at St. John's Hospital. George continues to play for the Black Knights Basketball Team. Francis L. Verdun - Francis and his wife, Darlene, and their three children live in Tinley Park, Illinois. He is a Director of Guidance at Community High School, District 218. Francis and his family enjoy traveling. Ken Viste, Jr., M.D. - Appleton, Wisconsin is home for Ken and his wife, Jane. Ken is a neurologist.

Ruth C. Webb - Ruth, who is a psychologist, is Director of Developmental Therapy at Glenwood State School in Glenwood, Iowa. For relaxation Ruth finds pleasure in oil painting, classical music and travel. Ronald Weeks -The Brokaw Hospital in Normal, Illinois is Ronald's place of employment. Ronald is an auditor. His wife, Lois Jean, is a Law Editor. Richard Welsch - At present Richard is a graduate student at Northwestern University. At his home in North Riverside, Illinois, he has set up model railroads, has a stamp collection, and does photographic work-these all being hobbies of his. William Welsch -Maryland Correctional Training Center is the place of employment for Bill as an Education Counselor. Bill may now be living in his new home, which was begun in September 1970 in Hagerstown, Maryland. William K. and Carolyn (nee Metzka) Whitenack - Bill is a political scientist having received his M.A. from Sacramento State College, June 1970. He and Carolyn live in Davis, California, where Carolyn works as a technician in the Bacteriology Department of the University of California. Bill enjoys archery and various wheelchair sports. Charles E. Whitman - When Charles is not having fun with his new hobbies of winemaking and beer brewing, he is seriously working at his job as a Mechanical Engineer with McDonald Douglas Aircraft Company. Charles, his wife, Jeraldine, and their two sons live in St. Peters, Missouri. Jack Whitman - Jack is an Account Executive with Radio Station W.D.W.S. in Champaign. His wife, Jan, is Office Supervisor in the Agriculture Economics Department at the University of Illinois. Jack is very active in wheelchair sports and he and his wife enjoy traveling. Jonathan and Sharon (nee Hovey) Wilkin -Baileys Crossroads, Virginia -- the location of North Virginia Community College is also the location of Jonathan's employment as an instructor. His wife, Sharon, is a Counselor at the Rehabilitation Center for Alcoholics in Lorton, Virginia. In their home in Vienna, Virginia, Sharon enjoys cooking and baking and Jonathan is a model railroad enthusiast. Phyllis (nee Stockey) Williams - Phyllis is a Claims Representative for the Social Security Department in Pasadena, California. She and her husband, Frank, are quite occupied with their small son, Frank Williams, Jr. born May 10, 1970. When Phyllis can find spare time, she studies astrology and writes horoscopes. Ruth Winzer - Ruth is a social worker with the Burnett County Department of Social Services in Webster, Wisconsin. She likes to paint, read, play and talk with kids. She also follows the construction of new public buildings and informs the contractors and owners of accessibility laws. Carol (nee Giesse) Wooledge - Carol, her husband, Jack, and their

daughter, Lara Lynn, live in Cincinnati, Ohio. Jack is a Project Engineer (chemical) with P.E. Development Company, Atkinson Square, in Cincinnati, Ohio. Carol stays busy as a housewife, mother and spare time gardener. William and Carla (nee Melchert) Wright - Sunny St. Petersburg, Florida is the home of Carla and Bill Wright. Carla is a graduate student at the University of Southern Florida. Bill is a statistician with the Rehabilitation Department of Goodwill Sun-coast. Conrad Zierdt III -Conrad is a Co-ordinator of Services to the Handicapped working with VISTA of Lee County in Auburn, Alabama. Conrad enjoys listening to music and reading. Eva Marie (nee Boudreau) Zwilling - Two sons and a daughter occupy much of Eva's time. She and her family live in Indianapolis, Indiana where her husband, Lee is a banker with American Fletcher National Bank.

ATTENTION ALUMS

This year marks the 25th year of the Rehabilitation-Education Center. Special plans are being made for the Alumni Banquet. For further details, see page 40.

Alumni Answer Question: "What Difficulties Did You Find Seeking Employment?"

"I find the greatest obstacle to be the preconceived notions in the minds of employers concerning the handicapped. Promotion to 'hire the handicapped' isn't adequate. We need a more in-depth approach similar to the efforts made in overcoming racial prejudice. How many (or few) of us ever thought of ourselves as members of a minority group until time for job hunting? Even previous experience counts for little when meeting a closed mind. Civil Rights, where are you? May all bosses and supervisors soon come to their senses. Ours is a minority group they or anyone can unwillingly join at any time."

"I have found the things that worry a handicapped person-entrances, restrooms, etc.,-can be solved easily. The only important thing is, and all the company wants to know, can you do their work. Don't try to trade on the handicap-that is, don't accept favors that others don't get-but use common sense Don't agree to do anything you feel you can't do. Know your limits. Don't ashamed of them."

"As far as advice to anyone goes, I think it is a good idea to put the employer at ease by asking him if he has any questions as to your physical being, limitations, etc. I found that employers are very curious about this, but will hesitate to ask. One has to offer this information about oneself. I feel this has helped me to obtain my position."

"The only problems encountered are when I travel-not too many stairs in California. However, the Midwest and East are loaded and most airports require stairs for dis-and embarking."

"A general lack of experience on part of college recruiters in talking and dealing with 'handicapped' people. Job hunter must put interviewer 'at ease' as soon as possible so that meaningful discussion concerning the job opening and applicant's qualifications can take place."

"None. I work for the Nation's largest employer of the physically handicapped—The Federal Government. Social Security offers many opportunities for the disabled, ideal conditions for those with no prior work experience."

"The only problem I encountered at all was that one or two fellow employees seemed to feel uncomfortable around disabled persons. Within a very short time, they were all used to having me around and things have worked out quite well."

[&]quot;Believe in yourself!!-others will. Don't try to be 'normal', try to be yourself.

"It is my conclusion that being blind is similar to being black. 75% of the difficulties encountered regarding employment are made of prejudice. I successfully competed for and have held civil service and private agency positions that required many interviews and many things I could do, I was told I could not. Therefore, I finally decided that self-enterprise would give me the autonomy I have been seeking."

"Some problems arose in making fellow employees feel comfortable wher working with me. A good sense of humor on both sides worked that out."

"The problem of accessible public buildings, apartments and motels is one I am continually encountering. Mr. Nugent has done an awful lot to ease the problem with his work on the National Committee to remove architectural barriers, but more needs to be done."

"I have tended to demand too much physical exertion of myself (a psychological problem, basically) and to be unselective in using my energy-consequently, I have either 'run out of steam' or worked in a tired condition much of the time. At the present I am trying to achieve quality rather than quantity in my work, to omit some unnecessary (even though enjoyable) activities in favor of adequate rest. Possibly it has been a problem of 'overcompensating,' but also a problem of lack of decision-making experience in earlier life."

"There are many companies that will not hire the physically disabled. One must accept the 'No's' and go on to the next company. After one is hired, he is watched for a short time to see if the disability interferes with his productivity. Fortunately, this period is short."

"Housing was a problem. My employer thought I would have to have housing within a block of the clinic. When he discovered I could drive, there was a wider selection of living sites available."

"I have never found my handicap to be an obstacle in teaching. People have always accepted me as 'me' and since I don't seem to be bothered by it, no one else is either. If I need help, I ask and I receive, but I've found very little need to ask."

"Employment for persons with disability seems to be more probable than ever before."

"I think that believing in your own possibilities and selling them to others is the best solution."

I'm Just Me

I don't want your pity, I don't need your praise, I'm just a guy whose making it The best way I know how these days. Don't feel sorry for me, Dam'n it all, this chair is Just a way to get around-that's all. I don't want to be your conscience, But you pretend I am and that's just nonsense. Don't you see-I'm just me. I'm not acting big about it, I'm not pretending that there's nothing wrong. There's just no sense to shout it out, it's Nothing spectacular, just another way to get along. I don't want to be admired, For just living day-to-day. Your unearned praise, it makes me tired, 'Cause I'm not doing anymore Than you are doing. In your own way. By Steve Saxton

NOTICE TO ALUMNI

SILVER ANNIVERSARY

U OF I REHABILITATION-EDUCATION CENTER

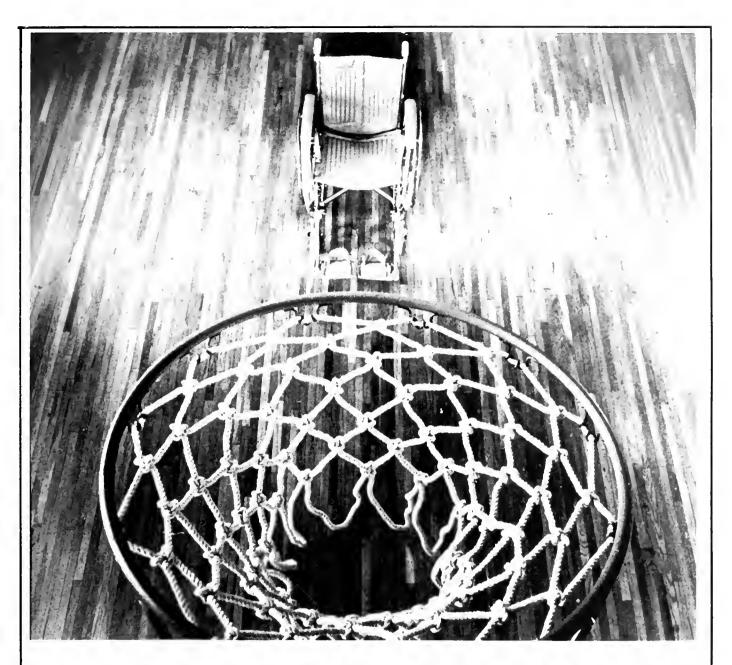

It all started twenty-five years ago and we're inviting all alumni and friends to join in celebrating this event at Homecoming, October 21, 1972.

This will be the main event where alums and friends can return to the campus for a great weekend for renewing old friendships and observing the accomplishments of twenty-five years of dedicated effort toward rehabilitation and education. The R-E Center will sponsor various other events throughout the school year to focus attention on this memorable silver anniversary, but homecoming is for alums and close friends. It's your weekend so make plans now to return to the campus Homecoming Weekend, October 21, 1972.

A schedule of activities for the weekend and reservation forms will be mailed to all alums for whom we have addresses. Please pass this information on to other alums with whom you may have contact in case we do not have their current address. If you are an alum and have not received Homecoming notices in the past years, it means we do not have your address. Please send your new address to the Rehabilitation-Education Center, c/o DSO Alumni, Room 131, Oak Street at Stadium Drive, Champaign, Illinois 61820.
